

If you want to keep your Filberry Backpack Diaper Bag in the best condition....

Here's the EASIEST WAY to zip the bags together:

1: Lay the large bag flat on its back and rest the small bag on top.

2: With your right hand, hold the zipper foot on the small bag; and with your left hand, hold the zipper foot on the large bag.

3: Fully insert the small bag zipper foot into the large bag zipper foot so they are firmly attached.

4: Keep hold of the small bag zipper foot with your right hand and pull the zipper up with your left hand.

And you're all done! Enjoy your new diaper bag! Any questions or comments? I'd love to hear from you on kim@filberry.com.

Have a great day!
